MX = Media-X-change

MX MEDIA-X-CHANGE

Easily exchange data between MAGIX programs and share the results online.

Note: MAGIX Photo Manager MX Deluxe is the new and improved version of MAGIX Photo Manager 10 Deluxe and MAGIX Digital Photo Maker.

NEW! Panorama Montage

Seamlessly combine individual pictures into horizontal or vertical panoramas including automatic focal length detection, correction of lens distortion and perspectives. Automatically formats, positions and crossfades the photos.

Create even larger panorama montages **combining up to eight individual images**.

NEW! Advanced display of slideshows

How about putting your photos together in a slideshow for your friends, relatives or colleagues?

It's not only possible, it's easy! Choose the photos you want, add some transition effects and some music. That's it!

And when you're done you can upload it to MAGIX Online World as a video file and post it on Facebook, Youtube or Flickr

Take advantage of many new features:

- An optimised **user interface** makes it even easier to use the program
- Includes **eight styles** (e. g. for zooms, automated camera panning, effects etc.)
- Automated camera panning for **panoramas** and **portrait photos**
- Enhance your slideshows with **opening and closing credits** including your own text
- Frequency of **effects** and **fades** can be adjusted
- **3 new background songs**
- User-defined **templates** can be saved

NEW! Travel route animation with online maps

Use the improved travel route animation and online maps of the world to show the most important highlights of your vacation.

- All modes of transportation (plane, car, ship etc.) are shown with a **perspective display** that marks out your route graphically.
- **Freely customisable travel route** allows you to make certain stops "invisible".
- Freely customisable **length of stay** at all stops
- Easier to use thanks to a newly improved user interface. Simply click on each location on the map to quickly plot out your route.

NEW! Take your photos with you wherever you go

Upload your photos to the **MAGIX Online Album mobile**. Transfer your pictures and slideshows directly from your iPhone, smartphone or other mobile device with Android® technology to your personal Online Album. You'll be able to access your files anywhere and amaze your family and friends with fantastic slideshows directly on your smartphone or tablet PC.

Unlimited multimedia enjoyment

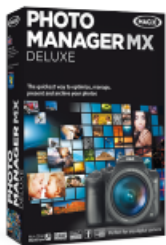

MX

 MEDIA-X-CHANGE

MX stands for **Media-X-change** - the fast exchange of media with other MAGIX programs, online services, and mobile devices. Post your photos online to share them with friends and family or transfer project media to other MAGIX programs for detailed editing.

All of the products in the new **MX series** will enable the easy exchange of data from one to the other. This connectivity will also be expanded to include social networks, cloud services and mobile devices. You'll find all of the MX options in the program menu under "share".
